## ***Project & Export Finance***

We are pleased to announce that, with immediate effect, **Patrick Blanchard** is appointed to the role of SVP Project and Export Finance for the Alstom Group, succeeding François Salvini. Patrick reports hierarchically to Nicolas Tissot, Group CFO and functionally to Philippe Delleur, SVP Alstom International Network.

Patrick joined Alstom in March this year and to date has acted as deputy to François to ensure a smooth transition into his new role. Previously Patrick spent his career in the banking sector in a number of international institutions and brings with him a strong experience and track record in this important field. In his role he will lead the Project and Export Finance activities across the Group and will support our business development by assisting clients with their financing requirements.

We would like to take this opportunity to warmly thank François Salvini for his strong contribution to the Project & Export Finance field over the past 16 years. François will continue to play an advisory role working alongside the Finance Function as well as Alstom International Network on a broad range of subjects supporting the continued growth of the Group.

Nicolas Tissot

Chief Financial Officer

Philippe Delleur

SVP Alstom International Network
